GENERAL BUSINESS	9e] Tim Woodward and Matt La Brant re. Removal of trees at Jones Reserve. "The Executive committee reviewed the correspondence and agreed that no further action should be taken by the VBCA. The VBCA acts as a conduit for residents to air their views and this has occurred. It is apparent that the issue is the responsibility of, and in the hands of, the Nambucca Shire Council and the Office of Environment and Heritage, and that they should continue to monitor the situation and take any steps necessary, and the NSC should notify residents of their plans."
MEETING CLOSE	1630 hours
